Application No. 10/596,245 Docket No.: 09450/0204353-US0 Amendment dated March 24, 2009

Reply to Office Action of December 24, 2008

REMARKS

Reconsideration of the application is respectfully requested.

I. Status of the Claims

Claim 4, 6, and 8 were previously cancelled without prejudice or disclaimer of the subject

matter contained therein. Claims 7 and 9 have been cancelled without prejudice or disclaimer of the

subject matter contained therein.

Claims 1, 2, 3, and 5 are herein amended. No new matter is added.

Claims 10 and 11 have been added, no new matter has been introduced.

Claims 1, 2, 3, 5, 10, and 11 are pending.

Applicants note that claims 7 and 9, at the time of filing, were claims for the ball joint, and

not just for the bearing seat. However, in response to the previous office action, the claims were

accidentally amended to recite a bearing seat. Applicants add claims 10 and 11 to recite the

elements of claims 7 and 9 as originally presented, plus including allowable subject matter.

II. <u>Drawings</u>

The Examiner has objected to the Drawings regarding the need to show the "a line apart

from each other" and "a line along the longitudinal direction," is noted. Applicants have amended

claim 5 to remove one of the non-illustrated elements. For claim 3, "the first dimples are arranged

so as to form a line apart from each other..." means that the first dimples are arranged apart from

each other along the longitudinal direction and consequently the lines are formed along the line of

longitudinal of the bearing seat, not that the lines are arranged apart from each other. Applicants

Reply to Office Action of December 24, 2008

submit that all of the claimed elements are illustrated and no new or corrected drawings are

submitted. The Examiner is respectfully requested to withdraw the above objection.

III. Claim Rejection Under 35 U.S.C. §112, Second Paragraph

The rejection under 35 U.S.C. §112, Second Paragraph, of claims 1-3, 5, 7, and 9, as being

indefinite, is traversed.

Claims 7 and 9 have been cancelled, rendering the rejection to those claims moot. Further,

without conceding the correctness of the Examiner's position or the need for amendment, claims 1,

2, 3, and 5 have been amended to more particularly claim the subject matter involved.

Specifically, the preambles of claims 1 and 5 have been amended to clarify that the positive

element of the claims is the bearing seat of the ball joint, not the ball joint itself with the ball stud.

Applicants appreciably thank the Examiner for his helpful advice and amended the preamble to

recite "for" clauses.

Applicants did not amend the claims to recite a "third" plurality of dimples. Instead,

Applicants further identified "small" and "large" dimples. The scope of the claims have not

changed.

Applicants note that although the "communication" of the openings is clear, the claims are

amended to recite that the openings are "approximately coinciding" as illustrated at least in Figure

4.

Applicants addressed the informalities in the claims and respectfully request the rejection be

withdrawn and the claims passed to issue.

IV. Acknowledgment of Allowable Subject Matter

Applicants thank the Examiner for the acknowledgment of allowable subject matter in

claims 1-3, 5, 7, and 9 save for the informalities above. Claims 1, 3 and 5 have been amended.

Claims 7 and 9 have been cancelled and reintroduced as claims 10 and 11. Applicants submit that

all pending claims are now in condition for allowance.

Amendment dated March 24, 2009 Reply to Office Action of December 24, 2008

CONCLUSION

In view of the foregoing, each of the presently pending claims is believed to be in immediate

condition for allowance. Accordingly, the Examiner is respectfully requested to pass this application

to issue.

The Examiner is respectfully requested to contact the undersigned at the telephone number

indicated below if the Examiner believes any issue can be resolved through either a Supplemental

Amendment or an Examiner's Amendment.
